IRA STATEMENT SAVINGS ACCOUNT

Rate Information - Your interest rate and annual percentage yield may change.

Frequency of rate changes - We may change the interest rate on your account at any time.

Determination of rate - At our discretion, we may change the interest rate on your account.

Compounding frequency - Interest will be compounded daily.

Crediting frequency - Interest will be credited to your account quarterly.

Minimum balance to open the account - You must deposit \$10.00 to open this account.

Daily balance computation method - We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day.

Accrual of interest on noncash deposits - Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks).

Transaction limitations:

You may make unlimited deposits into your account.

You may make withdrawals of principal from your account before maturity.

You can only withdraw interest credited in the term before maturity of that term without penalty. You can withdraw interest any time during the term of crediting after it is credited to your account.

Please refer to your IRA Plan documents.

Time requirements - Your account will mature _____.

Early withdrawal penalties (a penalty may be imposed for withdrawals before maturity) -

The fee we may impose will equal 182 days interest on the amount withdrawn subject to penalty.

In certain circumstances such as the death or incompetence of an owner of this account, the law permits, or in some cases requires, the waiver of the early withdrawal penalty. Other exceptions may also apply, for example, if this is part of an IRA or other tax-deferred savings plan.

For any time deposit which earns an interest rate that may vary from time to time during the term, the interest rate we will use to calculate this early withdrawal penalty will be the interest rate in effect at the time of the withdrawal.

Withdrawal of interest prior to maturity - The annual percentage yield assumes interest will remain on deposit until maturity. A withdrawal will reduce earnings.

Automatically renewable time account - This account will automatically renew at maturity. You may prevent renewal if you withdraw the funds in the account at maturity (or within any grace period mentioned below) or we receive written notice from you within any grace period mentioned below. If you prevent renewal, interest will not accrue after final maturity.

Each renewal term will be the same as the original term, beginning on the maturity date. Interest will be calculated on the same basis as during the original term.

You will have ten calendar days after maturity to withdraw the funds without a penalty.
